APPENDIX 1A

Pay-as-you-go Pricing — Illustrative Examples

to the Bindex® License Agreement and Sales Contract between Prevenova GmbH and the Licensee — applies only where the pay-as-you-go Pricing Model is selected

The following tables illustrate the monthly fee payable to Sub-Licensors under the pay-as-you-go model (Model 1). The fee is 30% of the gross scan revenue collected from patients, subject to two minimums: a per-scan minimum of €20 (relevant only where the patient price is below €67) and a monthly floor of €350 regardless of scan activity. All amounts in EUR, exclusive of VAT. The examples are indicative only; the actual fee is calculated on the actual gross amount collected from patients as reported in the Monthly Scan Log.

	480	€61,920	€18,576	€43,344

Annual figures assume a constant monthly volume. The €1,000 training fee in Year 1 is not included.

4. How the minimums work

Per-scan minimum: where the Licensee charges patients less than €67 per scan, the fee to Prevenova is €20 per scan instead of 30%. Example at €49: 30% would be €14.70, so €20 applies; 20 scans → €400 fee.

Monthly floor: where the total monthly fee would fall below €350 (low activity, holidays, or a low patient price), Prevenova invoices €350 for that month. Example at €89: 10 scans → €890 revenue → 30% = €267 → fee €350 (floor); 20 scans → €1,780 → fee €534 (30% applies). At €89 per scan the floor stops applying from 14 scans per month; at €69 from 17 scans; at €49 from 18 scans; at €129 from 10 scans.

Price changes: if the Licensee changes the patient price, 30 days' prior written notice is required (Sales Contract clause 5A). The revenue share is always calculated on the actual amount collected.

5. Comparison with the other Pricing Models (patient price €89)

Patient price	Scans / month	Scans / year	Pay-as-you-go annual fee	Annual subscription (smallest sufficient package)	One-time purchase, annual cost incl. Device over 5 years
€89	10	120	€4,200	Entry — €5,990	Entry — €5,470 **
€89	20	240	€6,408	Starter — €6,990	Starter — €6,470 **
€89	30	360	€9,612	Starter — €6,990	Starter — €6,470 **
€89	40	480	€12,816	Bronze — €8,290	Bronze — €7,770 **

** Scan package plus €14,900 Device price spread over 5 years (€2,980 per year). Pay-as-you-go carries no annual commitment; the training fee of €1,000 is credited if the Licensee moves to Model 2 or 3. At around 300 or more scans per year the subscription or purchase models generally give a lower cost per scan.
